Maureen,

Thank you for the opportunity to review and provide comments on the subject report.

And thank you for the extra time – we all can use it these days.

Geoff

Hi Geoff and Dave,

Just checking in on your reviews of OWP's costs report. I can extend the comment letter date to this Friday, but will need to cut you off then so we can finalize and distribute next week.

Sending you wishes of health and hope,

Maureen

Maureen,

Thank you for the opportunity to review and comment.

I would like to send this out to MS4 program managers – both Phase I and Phase II – to better inform our comments.

But before I do I want check to make sure that would be OK with you all...?

Thanks! Geoff

Subject: OWP_EFC Stormwater Costs Report

Dear Geoff, Dave, and Karen,

Attached is our long awaited summary of reported stormwater costs in CA. This Draft Final version is currently being routed internally for final editing. We do not have the capacity at this time to do further analysis or sufficiently address stakeholder comments. However, as we do of course value CASQA's and EPA's insight, we invite you to take a look and perhaps provide formal comment letters we could include as attachments so that such perspectives can carry forward with this document as the Water Board and others continue to evaluate costs.

With that, I'd request that such letters be provided by April 10. We plan to finalize and distribute on April 15.

Many thanks! Hope you are all staying healthy and productive.

Maureen
